

# SENIOR PROJECT MANAGER

(M/W/D)

**PROJEKT EDDIE** | School of Informatics, Communications and Media / Hagenberg

## YOUR TASKS

- You are responsible for the project management and take over planning and coordination tasks (international Horizon Projekt "EDDIE" - European Distributed Data Infrastructure For Energy)
- You oversee the budget via project controlling
- You have important deadlines in mind and motivate the team
- You create presentations and moderate meetings and workshops
- You are the central link between the consortium members, the project coordinator, and the internal project team
- You guide and support other developers in the team and also develop state-of-the-art code

## YOUR PROFILE

- You have a university degree (MSc or PhD) or successfully completed training in an IT or digital environment
- You have several years of solid professional experience in project management of international projects
- You are familiar with the following technologies: Apache Kafka, CI/CD with GitHub Actions, Git
- You have an understanding of software concepts and designs as well as software architectures
- You are confident in using common and agile project management methods
- You are communicative and confident in contact with international project partners, and you also enjoy working in a team
- You work in a self-organized and structured manner with a high level of initiative
- You have a good command of written and spoken English

## ABOUT US

As the largest and most research-intensive university of applied sciences in Austria, with nearly 6000 students in over 70 degree programs, we teach and research with a strong practical orientation and the highest quality. Thus, we have been providing top education for the next 25 years and invest in the future of Upper Austria with great pleasure.

At the [Hagenberg Campus](#), we are driving the digital revolution forward and score points with an impressive "Silicon Valley" in the middle of the beautiful Mühlviertel region. Our university offers the ideal environment for forward-looking and innovative research projects. With an excellent order volume of about 40 million Euros, more than 500 projects are being carried out with a total of 360 partners from business und society.

The Upper Austrian University of Applied Science is a place for people with curiosity and spirit of discovery. Shape the future together with us! [#AllAboutYourCareer](#)
